

Xendee is headquartered in La Jolla, CA. What is the size of Xendee? Xendee has 27 total employees. What industry is Xendee in? Xendee's primary industry is Business/Productivity Software. Is Xendee a private or public company? Xendee is a Private company. What is the current valuation of Xendee? The current valuation of Xendee is .

SAN DIEGO-(BUSINESS WIRE)-Xendee Corporation, the leading distributed energy system and Electric Vehicle (EV) fast-charging design and operation platform, is... Xendee Reports Remarkable Growth and Innovation in 2023

XENDEE Corporation is a company developing a cloud computing platform for microgrid and distributed energy system design and operation optimization. It offers balance of system (BOS) engineering analysis, custom tailored bankability study and implementation management.

With more than 40 years of international experience in the design and the economic and financial analysis of hybrid renewable and microgrid projects, Peter Lilienthal brings knowledge and insight to the Xendee team to help develop Xendee's international presence in areas such as Africa, Asia-Pacific, and other emerging markets around the world.

Xendee is an award-winning software platform built to integrate the feasibility analysis, detailed engineering, and operation of Distributed Energy Resources and EV fast-charging infrastructure. This includes the ability to rapidly model EV infrastructure for fleet owners, complex energy systems with up to 25 unique DER technologies, multi-node ...

Xendee Corporation, provider of the leading design and operation platform for distributed energy systems and Electric Vehicle (EV) fast-charging infrastructure, announces the achievement of important milestones in their contract to support NEOM, a visionary development aiming to create a sustainable and futuristic city in the northwest region of the Kingdom of ...

XENDEE Corporation has partnered with Idaho National Laboratory to develop an optimized platform for designing Microgrid Fast Charging Stations (MFCS) quickly and effectively. This project is funded by the DOE Office of Electricity, Microgrid Program. Skip to ...

Find company research, competitor information, contact details & financial data for Xendee Corporation of La Jolla, CA. Get the latest business insights from Dun & Bradstreet.

SAN DIEGO-(BUSINESS WIRE)-Xendee Corporation has signed a contract with the US Department of

Defense (DoD) to develop the Standardized Platform to Guide Rapid and Repeatable Modelling and Design of Secure and Resilient DoD Microgrids globally. Xendee has been tasked to deliver design solutions that enhance energy reliability, while providing ...

The flag for French Southern Territories, which may show as the letters TF on some platforms. The Flag: French Southern Territories emoji is a flag sequence combining ? Regional Indicator Symbol Letter T and ? Regional Indicator Symbol Letter F .

SAN DIEGO--(EIN PRESSWIRE)--Idaho National Laboratory (INL), in partnership with Xendee Corporation and Reilly Associates, has released a new report titled "Small Reactors in Microgrids: Technology Modeling and ...

SAN DIEGO-(BUSINESS WIRE)-Xendee Corporation, the leading distributed energy system and Electric Vehicle (EV) fast-charging design and operation platform, is excited to announce its role as a partner in an international project led by Arizona State University (ASU) aimed at bringing electricity access and sustainable energy to remote communities in Fiji that ...

With more than 40 years of international experience in the design and the economic and financial analysis of hybrid renewable and microgrid projects, Peter Lilienthal brings knowledge and ...

Xendee DESIGN supports 25+ technologies such as electric vehicles, cold storage, CHP, batteries and PV systems, in combination with eight different energy domains like electricity, heating, cooling, domestic hot water, natural gas, biogas, ...

Overview. This project is the first step in developing a holistic design and validation framework for roadside Microgrid configurations that deliver optimal electric vehicle fast charging, grid interaction, and value-added grid services as well as a bankable foundation for a reliable and sustainable nationwide electric vehicle (EV) charging network.

About Xendee Corporation Xendee is the new standard in distributed energy system design and operation. The award winning platform integrates the microgrid design process into one piece of software and allows users to rapidly validate projects of any size, optimize designs, optimize investments, and operate microgrids in realtime to reach their ...
