What is Germany's trademark renewable support scheme? Germany has supported the expansion of wind and solar power with its trademark renewables surcharge (the EEG in German): a guaranteed feed-in payment that producers of renewable electricity receive for every kilowatt-hour (KWh) they feed into the grid, usually during a 20-year period.. The EEG ...

This includes investing in renewable energy, energy efficiency, circular economy solutions, and advanced manufacturing. ArcTern Ventures" goal is to invest now and help build a future free from the restrictions of carbon emissions. 22. Chrysalix Venture Capital.
