Chinese solar manufacturer Seraphim Solar System (Seraphim) is planning to open a new 500MW South African solar cell plant, located in the Coega industrial development zone of Port Elizabeth.

Why is Seraphim launching a 300MW module plant in Eastern Cape?

In August, it opened a 300MW module plant in Eastern Cape. The new expansion will improve Seraphim's manufacturing supply chain in the country. Development of the new facility and expansion works are being carried out by both Seraphim and IDC.

Why is Seraphim building a cell plant in South Africa?

Seraphim president Polaris Li said: "We have continuously received purchase orders for modules from our 300MW factory in South Africa since it reached full production in September; building our own cell plant in South Africa is the ideal way to support our customer base by optimising our production and reducing lead times.

Según los términos del acuerdo, Vertys Energy Group importará y distribuirá un total de 300 megavatios (MW) de módulos solares bifaciales TOPCon de alta eficiencia de Seraphim en Brasil. Esto marca un hito significativo para Seraphim, ya que refuerza su presencia en el mercado solar brasileño, que está creciendo rápidamente.
