Connecticut's Energy Evolution. No one can deny the many regulatory and consumer changes we've seen after over 100 years in the energy sector. Our focus has always been on taking advantage of new technologies, fuels and methodologies in order to keep us at the forefront of our industry and thus provide the best service to our customers.

As we head into the winter months, energy prices are on the minds of homeowners both locally and throughout the country. For the last six months, we have all been impacted by high gasoline prices, escalating food prices, and general inflation of consumer goods, as a result of COVID, supply chain issues, war, and global energy market changes.
