

As a market leader installing smart meter technologies throughout North American, our team members know what it takes help our utility partners deliver their business outcomes. We bring the solutions and partnership they can count on to manage risks and deliver results in an everchanging environment.

Every day, Grid One team members are working with our customers and partners to deliver solutions for the gas, water, and electric markets. As an industry leader in metering, data, and automation deployment, we go to great lengths to ensure our operations are adhering to the most rigorous health, safety, and compliance standards.

Grid One is backed by Asplundh, a family owned and operated, financially strong company with more than 34,000 service professionals serving the United States, Canada, Australia, and New Zealand. Since 1928, the company has provided utilities with vegetation management and infrastructure services to help our communities thrive.
