READING, Pennsylvania, September 13, 2021 - EnerSys ®; (NYSE:ENS), the global leader in stored energy solutions for industrial applications and the manufacturer of ODYSSEY ®; batteries, has expanded its ODYSSEY ®; battery brand portfolio to now include ...

Made from 99.99% pure lead, CYCLON battery plates are extremely thin, so they offer more surface area than conventional batteries and far more power. High purity acid is absorbed right into the Absorbed Glass Mat (AGM) plate separators, so the CYCLON battery provides leak-proof operation in any position.

When readiness and reliability are paramount, EnerSys®; batteries are hard at work in the world's most critical and demanding applications. High performance, low maintenance and long life are the hallmarks of EnerSys products. Power ready to meet the challenge wherever and whenever the mission requires.

Hawker MIL PC AGM Batteries feature the same superior performance as the Armasafe Plus and are sized for a wide range of military vehicles and equipment. The unique Thin Plate Pure Lead (TPPL) technology of Hawker MIL PC AGM Batteries provides maintenance free operation, longer life, deep cycle capability, vibration resistance, higher starting ...

Only Express batteries are engineered and manufactured specifically for fast charging and long life. With exclusive Square Tube Technology, heavy duty components and factory installed watering systems, Express

batteries will: run cooler, live longer, deliver the most capacity of any fast charge battery. Express batteries deliver maximum productivity, allowing your trucks to run ...

EnerSys® has strengthened its Manufacturer Representative Agreement with Industrial Battery & Charger, Inc. (IBCI) by granting exclusive sales and service rights for all EnerSys® motive power products in the Middle Tennessee Territory, with local offices in Nashville. Effective immediately, the exclusivity agreement includes the complete line of ...

designed for high-volume applications, these maintenance-free batteries are engineered to boost throughput and accelerate productivity like never before. nexsys® tppl atp batteries deliver up to a 50% increase in daily energy throughput compared to standard tppl batteries and up to 200% over traditional lead acid. request a quote

August 2, 2024: International battery company, EnerSys, announced on July 26 that it had closed the acquisition of Bren-Tronics, a manufacturer of portable power products for defense customers, including small and large format lithium batteries. EnerSys CEO David Shaffer had confirmed in early May that the acquisition was going to go ahead.
