

Does Guinea Alumina have a bauxite refinery?

Last month, Guinea Alumina Corporation, a subsidiary of Emirates Global Aluminium, announced plans to establish a domestic alumina refinery with an annual capacity of 1 million tons. Both projects align with President Doumbouya's 2022 directive urging mining companies to construct refining facilities for local bauxite processing.

What is a 'national interest' project in Guinea-Conakry?

The project involves the construction of the refinery, industrial installation sites, a living base and mineral transport corridor, along with associated infrastructure required for mineral transport activities. Transitional President of Guinea-Conakry, General Mamadi Doumbouya, designated the refinery as a "project of national interest" by decree.

Does Guinea have a green energy policy?

Guinea is pleased to partner with Team Europe to provide green energy to Africa. Lastly, the minister said that since 2010, Guinea has been implementing an ambitious programme of major infrastructure work in the field of renewable energy in order to improve its energy mix.

What is Alteo refinery Guinea?

Alteo Refinery Guinea will construct and operate a new alumina refinery in Boké, Guinea-Conakry. The project involves the construction of the refinery, industrial installation sites, a living base and mineral transport corridor, along with associated infrastructure required for mineral transport activities.
