

How many solar home energy systems are distributed in Guyana?

GEA supported the implementation of a massive electrification project to supply, deliver and distribute 30,000 Solar Home Energy Systems to Hinterland and riverine communities in Guyana. A total of 26,398 units were distributed as of December 2023.

How many mega-scale solar farms are there in Guyana?

Government of Guyana commissioned its second mega-scale solar farm, the 1.5 MW utility-scale solar PV plant at Bartica, Region Seven (Cuyuni-Mazaruni) in March 2023. At twenty-two (22) off-grid locations, GEA installed over 163 kWp of solar PV capacity and 800 kWh of battery energy storage.

Will Guyana decouple economic growth from fossil fuels?

(Georgetown) February 05, 2024 - The Guyana Energy Agency (GEA) has recorded notable milestones from energy projects undertaken in 2023 as Guyana pursues important steps to decouple economic growth from using fossil fuels for electricity generation and harness its low-carbon resources.

3 ???&#0183; The Guyana Energy Conference and Supply Chain Expo (GECSCCE) is pleased to welcome Brava Solutions on board as a Gold Sponsor for the 2025 edition of our flagship event. Brava is a next-generation solutions provider that ...

Near grids Solutions is the company that was born out of Mobile Green Energy System - a Flux50 feasibility study. The project was presented in our first webinar on projects powered by Flux50: E-stories innovation. This month Near grid Solutions kicked off ...

At Neargrid, we help construction companies with their energy transition. As a system integrator, we develop integrated solutions, fully tailored to the construction industry. Our mobile battery systems power construction sites. This makes it possible to replace diesel generators with electric solutions without burdening the distribution grid.
