

Who is Heliatek?

As the technology leader in organic photovoltaics, Heliatek develops, produces and distributes industrial-grade organic PV solar solutions for virtually any building surface (horizontal, vertical, curved, rigid, and flexible).

Is Heliatek a green product?

This is a truly green product", says Jan Birnstock, CTO of Heliatek. Heliatek is currently installing its large-scale production line for their unique OPV solar films. The line is in the ramp-up phase and will produce organic solar films with an annual capacity of up to 1 million m²; from mid-2020.

What will Heliatek do in 2030?

In 2030 Heliatek will enable every building to be 100% energy neutral and smart with access to an independent supply of truly green electricity. We offer organic Solar film solutions with world-class reliability thanks to our proprietary roll-to-roll production methods in vacuum.

Can Heliatek power a building?

"We want to change every building into an electricity-generating building," Birnstock says. Heliatek's panels are among the few OPVs in practical use, and they convert about 9% of the energy in sunlight to electricity.

What is Heliatek & heliasol TM?

Heliatek stands for energy solutions designed for various traditional and never been possible before applications based on its unique features - ultra-light, flexible and truly green. Heliasol TM is a ready-to-use solution, ideal for retrofitting on existing building structures.

Can Heliatek expand solar power beyond flat land?

In the past few years, Heliatek has mounted its flexible panels on the sides of office towers, the curved roofs of bus stops, and even the cylindrical shaft of an 80-meter-tall windmill. The goal: expanding solar power's reach beyond flat land.

The certificate will also be a great accelerator for Heliatek's solar films to get adopted by customers and installers in international markets and for installation in significantly large projects. According to Heliatek, the IEC 61215:2021 and the also certified IEC 61730:2016 are the two critically important and internationally recognized ...

In 2030 Heliatek will enable every building to be 100% energy neutral and smart with access to an independent supply of truly green electricity. We offer organic Solar film solutions with world-class reliability thanks to our proprietary roll-to-roll production methods in vacuum.

In 2030 Heliatek will enable every building to be 100% energy neutral and smart with access to an

independent supply of truly green electricity. We offer organic Solar film solutions with world-class reliability thanks to our proprietary roll-to ...

Heliatek develops, manufactures, and markets industrial-grade organic PV solar solutions for any building surface (horizontal, vertical, curved, rigid, and flexible). HeliaSol® is a ready-to-use solution, ideal for retrofitting existing buildings.

Heliatek emphasizes that thin film solar technology can be applied in places where conventional, rigid solar panels are difficult if not impossible to apply, including the outer walls of buildings ...

Het Duitse bedrijf Heliatek - winnaar van The Green Quest Award - ontwikkelde een alternatief: zonnepanelen die groener zijn dan reguliere zonnepanelen en op vrijwel ieder oppervlak kunnen worden geïnstalleerd. Guido van Tartwijk, CEO van Heliatek: "Hiermee kunnen we toewerken naar energiegebruik zonder enig schuldgevoel."

Siemens Energy has realized a milestone solar project at its transformer factory in Nuremberg, Germany. More than 150 HeliaSol solar films were directly glued to the upper section of a production facility's facade. Completed within an impressive three-day timeframe in September 2023, this project underscores Siemens Energy's commitment to accelerating its journey ...

Bei Heliatek haben wir nicht nur organische Photovoltaik-Materialien von Grund auf neu entwickelt, sondern auch die erste Massenproduktionsstätte an unserem Hauptsitz in Dresden, Deutschland, aufgebaut. Wir verwenden keine begrenzten Rohstoffe und Seltenen Erden und sichern so eine robuste Lieferkette, die geopolitischen Instabilitäten ...

April 2024: Heliatek, weltweit führend in der organischen Photovoltaik, ist stolz, einen wichtigen Meilenstein erreicht zu haben, der die Technologieführerschaft von Heliatek unterstreicht. TÜV Rheinland (Deutschland) hat das erste Produkt der neuen Generation von Heliatek's HeliaSol Solarfolien nach IEC 61215 zertifiziert und damit die ...

Heliatek produziert flexible, effiziente und wirklich grüne organische Solarfolien für Gebäude. ... Solar energy is a key energy for the energy production of the future. We have developed a technology that will enable photovoltaics to be used in even more applications than is currently possible. Our organic solar films are ultra-light ...

Heliatek is currently installing its large-scale production line for their unique OPV solar films. The line is in the ramp-up phase and will produce organic solar films with an annual capacity of up to 1 million m² from mid-2020.

Heliatek General Information Description. Developer and manufacturer of organic photovoltaic (OPV) products intended to push the limits of organic electronics. The company's organic photovoltaic (OPV)

products include OPV films for ...

Heliatek stands for innovative solar films that transform buildings all over the world into clean energy generators. We set the highest standards for the quality of our products and the sustainability of our actions. We are committed to go far ...

FAGOsolar. Reaktionen 4.249 Beiträge 10.885 Marktplatz Einträge 1 PV-Anlage in kWp 3,93 Stromspeicher in kWh 14,3 Information Händler. 7. September 2023 ... von Solar Fabrik GmbH. 12. September 2024 #5; Ich hab die Dinger auch gerade in einem Video gesehen und mich dann mal zu einem Datenblatt durchgeklickt.
