A successful solar home system (SHS) programme should be supported and expanded, the report says. Looking to address challenges at the local level, the roadmap recommends solar desalination in South Tarawa; a combination of wind power, PV and battery storage for Kiritimati Island; and renewable-based refrigeration for fish in the Outer Islands.

Typical of remote Pacific islands, Kiritimati Island in Kiribati experiences a high cost of electricity production. Compared to a regional average of between AU\$0.35 and AU\$0.55 (IRENA 2012a), the cost of producing electricity on Kiritimati Island is estimated to be as much as AU\$0.67 per kilowatt-hour (kWh).

Kiribati Green Energy Solution, a State-Owned Enterprise was established on 14 November 1984 under the Company Ordinance Cap 10A. It is a leading Government implementing agency in ...

The Pacific Centre for Renewable Energy and Energy Efficiency (PCREEE) played a pivotal role in supporting the establishment of the Kiribati Sustainable Energy Association. With the PCREEE's guidance, Kiribati now joins Fiji, Solomon Islands, Vanuatu, and Tonga in the Pacific Region's Sustainable Energy Industry Association.
