We are thrilled to announce the successful inauguration of Vietnam's first battery energy storage system (BESS) at MOTUL VILUBE's Rooftop Solar PV facility. Developed in collaboration with MOTUL, Asia Clean Capital Vietnam (ACCV), 365 Energy, and POWEROAD, this landmark project marks a significant milestone in Vietnam's renewable energy landscape.

Household ESS Solutions. Household energy storage equipment is to store electrical energy and use it when needed - also known as electric energy storage products or &quot;battery energy storage system&quot; (BESS), hereinafter referred to as HES. The core component of HES is a rechargeable battery, usually a lithium-ion battery or a lead-acid battery.
