What is a solar panel warranty?

Solar panel warranties are key to maximizing the lifespan of your solar panel system. In addition to your equipment warranty, which certifies against manufacturing defects, your performance (AKA power) warranty guarantees that your solar panels maintain a certain percentage of their original output each year.

Do solar panels go through a natural degradation process?

Yes, a solar panel goes through a natural degradation process as part of its lifecycle. This means that its ability to convert daylight into electricity is very slightly reduced each year. Why do solar panels degrade? Solar panels degrade mainly because of exposure to the elements.
