

MOSJ is a government system for environmental monitoring of Svalbard, Jan Mayen and the nearby sea areas and presents environmental information that is strategically important for politicians and administration. Relevant research results and monitoring data from a number of Norwegian institutions are reported to this system.

Svalbard and Jan Mayen, with their unique geographical and environmental characteristics, offer promising opportunities for emerging industries and investment prospects. [...]

Industrial Solar Consulting (ISC) is a dedicated team of engineers specializing in the unique challenges of designing, building and maintaining remote, off-grid solar and hybrid systems. ISC brings power to the most remote, hard-to-reach locations.

Find the right Renewables & environment category companies based on the most reliable reviews from Trustburn. Get started now and find the best companies that suit your needs.

Reasons to Grow your Business in Svalbard and Jan Mayen. The market is stable and easy to expand. There is much opportunity on these remote islands, even with their sparse populations. For example, we saw how business owners can ...

Reasons to Grow your Business in Svalbard and Jan Mayen. The market is stable and easy to expand. There is much opportunity on these remote islands, even with their sparse populations. For example, we saw how business owners can dabble in real estate since they provide housing for their employees. Opportunities also exist for food production ...
