

Who is iqony solutions?

Iqony Solutions provides customized responses to the challenges of the energy transition. As a partner for all the issues related to decarbonization and digitalization, we support our customers with engineering expertise.

What does iqony do?

Iqony - we believe in new. The energy of the future needs strong partners: As part of the Steag Iqony Group, we support you in the decarbonization, decentralization and digitalization of the energy supply. Take the next step towards a green future with us! The key to a sustainable world lies in sustainable energy.

How iqony makes green energy possible?

Iqony makes green energy feasible. With 85 years of experience in the planning, construction and operation of energy facilities, the company provides holistic solutions for the decarbonization, decentralization and digitalization of the energy supply.

Why should you choose iqony?

The key to a sustainable world lies in sustainable energy. For the energy transition to succeed, we need new, individual solutions, openness to modern technologies and extensive experience. Iqony offers all of this from a single source. The basis for this is our broad expertise, which covers the entire spectrum of the energy industry.

Paris, June 26, 2024 - TotalEnergies has signed an agreement to acquire a 60% interest and operatorship in Block STP02, offshore Sao Tome and Principe, from the Agencia Nacional do Petróleo de S. Tomé e Príncipe (ANP-STP). The remaining interest will be held by the existing license holders, Sonangol (30%) and ANP-STP (10%). The transaction is subject to final ...
