

Who is Nomad transportable power systems?

NOMAD Transportable Power Systems, Inc. ("NOMAD"), is a Vermont-based company formed by KORE Power in 2020 to provide the energy industry with a standardized mobile energy storage platform.

What is a Nomad system?

From the 2 MWh Traveler to the 214 kWh Pathfinder, the NOMAD system can meet virtually any application need. Leverage cost savings and control of energy storage without extensive investment in fixed assets Reduce reliance on vulnerable public grids and power infrastructure to minimize unplanned outages or blackouts

Where is NOMAD made?

"Every NOMAD system we deliver is manufactured in North America with our unsurpassed commitment to safety and innovation," Coombs said. NOMAD Transportable Power Systems, Inc. ("NOMAD"), is a Vermont-based company formed by KORE Power in 2020 to provide the energy industry with a standardized mobile energy storage platform.

How does Nomad powerdock work?

Rapidly respond to changing grid conditions and bolster energy security Stack fixed and mobile energy storage assets to modernize your energy strategy while retaining the agility of relocating when and where energy support is needed The Nomad Powerdock system connects you to power in any environment with one seamless integration.

What types of power options does Nomad offer?

For specialized applications, NOMAD also offers a range of options including those for marine applications, cold or warm weather, additional auxiliary power, hydraulic lifting legs or 50 Hz European configuration. All NOMAD systems are designed to NFPA 855 and are powered by KORE Power battery cells that are UL9540A and UL1973 tested.

How can a military use Nomad?

Deploy temporary EV charging points and eliminate the need for costly fixed storage infrastructure at e-freight or e-transit charging installations. Rapidly deploy NOMAD to support disaster relief efforts and restore power grids. Likewise, defense interests can utilize NOMAD to mitigate energy security concerns at remote bases or outposts.

NOMAD Transportable Power Systems was founded by Northern Reliability, and KORE Power. The idea was formed early in 2015 when a necessity was recognized to deliver energy based on the customers' needs with a lower cost of entry. Starting in early 2019, NRI and KORE established a working partnership for standard ESS systems that are mobile and ...
