

Who is Casso-solar technologies?

Casso-Solar Technologies is a leading manufacturer of infrared industrial ovens, furnaces, and heat treatment equipment including infrared heaters, dryers, and curing systems.

Why should you choose Casso-solar technologies?

At Casso-Solar Technologies, we specialize in infrared heaters used in various industrial heat treating applications. With an eye on productivity, energy saving, and cost-effectiveness, we can help you select customized infrared heaters that meet your specific requirements.

How do I contact Casso-solar technologies?

Casso-Solar Technologies website will provide introductory information to a variety of technologies. Our Sales and Applications Engineers stand ready to assist you. Please contact us, or click on Inquiries to obtain a quote or submit an inquiry. For immediate results, please call: 845-354-2010 or email sales@cassosolartechnologies.com.

This is where Casso-Solar Technologies can help. We specialize in the design and manufacturing of custom infrared (IR) heating systems to meet our customers' needs. Our IR systems are proven to deliver the heat in required wavelengths and minimize the energy consumption in different industrial settings.

While we do offer some "standard" designs for many of our heater types, Casso-Solar can provide a wide variety of customizations to fit your requirements. ... Casso-Solar Technologies LLC. 506 Airport Executive Park Nanuet, NY 10954. Contact: Phone: 845-354-2010. Fax: 845-547-0328.

With six decades of infrared technology expertise, Casso-Solar is ready to address your project needs. Reach out to our specialists today. Talk to an expert. Address: Casso-Solar Technologies LLC. 506 Airport Executive Park Nanuet, NY 10954. Contact: Phone: ...

At Casso Solar Technologies, our mission is to revolutionize industrial material processing and manufacturing by equipping manufacturers with advanced infrared technology that eliminates bottlenecks, reduce energy

consumption, ensures temperature precision, and adapts to diverse production demands.

At Casso-Solar Technologies, we specialize in infrared heaters used in various industrial heat treating applications. With an eye on productivity, energy saving, and cost-effectiveness, we can help you select customized infrared heaters that meet your specific requirements.

Here at Casso-Solar Technologies, we provide the complete design and fabrication of infrared heat processing machinery customized to maximize efficiency and productivity at your company. Our infrared systems can provide everything you require for your processing needs including combination infrared/convection ovens, furnaces, conveyor systems,

Derek Burkholder, President of Casso Solar Technologies, holds a BS in Mechanical Engineering from Cornell University. With over a decade of experience and a background as Engineering Manager, Derek leverages his extensive industry knowledge to write authoritatively on the design and application of heating systems, including industrial ovens ...

Casso-Solar Technologies designs and manufactures infrared heat processing systems, heaters (gas infrared heaters, panel heaters, tube heaters) and ovens. Many industrial applications have used our ovens and other heat processing systems for drying or curing paint and powder.

Casso-Solar Technologies 506 Airport Executive Park Nanuet, NY 10954. Products; Catalogues; Press Release; White Papers; Videos; Profile. Type V-Series Heater. Type V-Series Heater. The V-Series is perfect for applications that require high power, fast heat-up and cool-down, precise process control and uniform heating. The V-Series element is a ...

This allows users of Casso-Solar Technologies and competitive electric infrared heaters to switch to less expensive gas fuel without the need for a completely new installation. For the most precise control of Casso-Solar Technologies Gas Catalytic heaters, closed loop thermocouple feedback control is recommended.

...

Casso-Solar Technologies is a designer and fabricator of infrared heat processing machinery. It offers unitube heaters, furnace tube heaters, high-intensity heaters, gas catalytic products, etc. The company caters to glass processing, paint or powder finishing, textiles, metals, plastic and film, specialty products sectors.

Casso-Solar Technologies" Laminated Glass Lines integrate adjustable infrared and convection heating for rapid, uniform bonding across glass types, including Low-E and coated glass. Designed with automated press roller gap settings and quick recipe changeovers, our systems support both autoclave and non-autoclave processing and accommodate ...
