

On April 13, 2024, Iran targeted Israeli territory directly for the first time, launching hundreds of drones and missiles. The strike marked the largest and most significant attack on Israel since the 1967 Six-Day War and the largest drone attack in history, with consequences that could alter the power equations of West Asia. There are seven significant elements that should be highlighted:

3 ???&#0183; Closing the gap on clean energy production with advanced storage solutions. Projects. enlight around the world. Hover over to see Enlight's international activity.
