durable, alternative power options off the grid. Whether you need to power a home or business, the Solar

PowerPak TM is your dependable solar solution.. The Solar PowerPak TM outperforms other solar power

resources in its performance and reliability.

Why Aldelano Solar Solutions. Our Aldelano cold storage solutions are more than just solar refrigeration.

They are also a source of renewable energy, food supplies, and safe, clean drinking water. We understand that

helping to solve world hunger is not just about securing an abundance of natural resources, but it is also about

reducing food waste and preserving harvested food.

The Aldelano Solar ColdBox has proven to be the perfect solution for every business that requires an efficient

cold storage solution. The Aldelano Solar ColdBox(TM) is an industrial-grade, portable, solar-powered cold

storage mini-warehouse that provides a completely renewable power source, offering both refrigeration and

freezing capacity.

The Beginning of a Solution. Freshwater generators can alleviate much of the suffering in arid regions, and

Aldelano has developed an off-grid solution with the Aldelano Solar WaterMaker TM. The Solar WaterMaker

TM is an atmospheric water generator powered only by the sun. It comes as a freestanding generator or as an

attachment to any Aldelano solar cooler.

The Aldelano Solar Chiller is a small cold storage unit that runs on solar power. It is a great resource for

agriculture and temperature controlled storage. Temperatures range from 45 to 70 degrees Fahrenheit within a

12ft, 20ft or 40ft container.

Cold storage solutions, equipped with solar technology, have emerged as a game-changer. They offer a

reliable means of preserving produce, reducing losses, and ensuring that more food reaches the market.

Extending Shelf Life. Cold storage solutions provide a controlled environment where temperature and

humidity levels can be optimized.

solutions. Despite being the world"s largest banana producer, it holds just 0.3% of the global banana market.

Less than 4% of India"s fresh produce is transported by cold chain, compared to more than 90% in the UK. ...
