

Who installed the largest commercial solar installation in Jersey?

SunWorks was contracted by Jersey Electricity to install the Channel Islands' largest solar installation at Jersey Dairy, a total of 1,516 Solar panels. This saw the start of JE's lease scheme for commercial building owners and enabled SunWorks to deliver a world-class commercial solar installation in Jersey.

Why did Mark & Ian start a solar business in Jersey?

Mark and Ian had to start pushing for a higher volume of installations for the survival of their solar business in Jersey due to its slow uptake. This marked a journey towards focusing on the business side and 'hitting the numbers'. Kevin Keen was appointed as the first Non-Executive Director with sales targets set and accountability held.

Solar power technologies harness the energy from the sun's light and converts it into electricity. Solar photovoltaic panels, (Solar PV panels), are made up of individual cells made of silicon or other special material. When the sun hits the solar panel the photons from the sunlight are absorbed by the cells, creating an electric field and causing electricity to flow.

Solar Panel Installations Are Leaking All Over New Jersey. Although we've always used high-quality flashing to protect against leaks, some of our competitors have installed solar panel systems on aging roofs or without the use of proper flashing. The use of proper flashing was more vigorously enforced by code officials in the 2015+ time-frame when flashing was required by ...
