

About Us. Kilowatt Labs, headquartered in New York City, has invented and manufactures two groundbreaking technologies - Sirius supercap storage is a degradation free, longer-life, faster charging, safer, cheaper and more environmentally friendly alternative to chemical batteries and Centauri energy server which is a stand-alone, integrated, power electronics hardware + ...

Sirius VIEW Software - User Manual Version Number - 5.0.0 This manual is subject to change without notice and at the sole discretion of Kilowatt Labs, Inc. ... without the prior written permission of Kilowatt Labs, Inc. ("Kilowatt" or the "Company"). Specifications in this Manual are subject to change without notice. While every ...

The "Super" Battery, produced by KiloWatt Labs and referred to as the Sirius Capacitor Module, is the world's first supercapacitor-based energy storage system. This revolutionary new technology can be used for everything from residential solar installations to ...

Sirius Energy Storage products for stationary applications are currently available in selected markets. This modular and scalable system provides a technically and commercially viable, plug-and-play replacement for chemical batteries. Applications include: CELL TOWER; SOLAR + STORAGE; GENSET + STORAGE; MICROGRIDS; SOLAR STREET LIGHTS; WIFI POLES

Kilowatt Labs, based in New York City, is the developer of the world's first supercapacitor-based energy storage system, Sirius Energy Storage. As a co-founder and managing director, Chip brings nearly 30 years of experience from the financial industry that includes work in the public, private, and startup markets.
