The world's leading distributed energy solution provider, Growatt, has recently won the pv magazine Award 2022 with its latest innovative APX HV Battery.. This award recognizes the novel product as a trailblazer in the energy storage sector that will help households worldwide upgrade their solar storage experience to a stronger, safer, and easier level.

Growatt has announced the launch of a one-fits-all APX HV battery, incorporating innovations in performance, operation, protection and installation.. Integrated with novel soft-switching parallel connection technology, the new product delivers more energy by eliminating the effect of mismatch between packs, enabling each module to fully charge and discharge independently.

Het APX batterijsysteem bevat kobaltvrije LiFePO4-chemie en vierlaagse bescherming door BMS, modulaire energie-optimalisator, zekering en aerosol om de verbeterde veiligheid, betrouwbaarheid en lange levensduur te garanderen.

Growatt batteries offer a wide range of voltage options, allowing customization to match specific energy requirements and capacities. The advanced features of Growatt energy storage make it special. For example, they have battery cell balancing technology that improves electricity use and makes the battery last longer.
