

The Holcomb Energy System requires no grid infrastructure. It can operate anywhere, even in the middle of the Sahara, providing 100% zero carbon footprint power to any size load, using no fuel. And because it operates with no moving parts, there's no heat and no wear and tear, so it requires very little maintenance.

Recently, the Holcomb Energy Systems (HES) In-Line Power Generator (ILPG) was installed into a 5,000 sq ft commercial office facility/warehouse in southwest Florida for testing. The power provider ...

Holcomb Scientific Research Ltd. (HSR), ein Forschungs- und Entwicklungsunternehmen, gab mit der Einführung des Holcomb Energy System (HES) einen wissenschaftlichen Durchbruch bei der Erzeugung von 100 Prozent sauberer Energie bekannt.

Holcomb Energy Systems | 520 Follower:innen auf LinkedIn. The Solution to Pollution, Climate Change, and Equitable Access to Electricity. | An entirely new source of 100% clean energy, the Holcomb Energy System (HES) is a world-changing scientific breakthrough in clean energy generation. Patent protected worldwide, the HES utilizes the natural energy produced by the ...

With decades of experience across the medical, scientific, and energy industries, Dr. Holcomb is a pioneer in modern invention with hundreds of patents across a range of industries, from ...

"Natural energy force of the universe" "Just like energy that keeps stellar bodies of the universe in motion never runs out" Anyone who have at least a bit of education would already want to spit in his face at this point. Comments section on is also filled with bullshit like: The HES is designed to run indefinitely! Cool.

Recently, the Holcomb Energy Systems (HES) In-Line Power Generator (ILPG) was installed into a 5,000 sq ft commercial office facility/warehouse in southwest Florida for testing. The power provider company for this area is Florida Power & Light (FPL). The following graphs show a "snap-shot" in time, in which the ILPG was installed and ...

Holcomb Energy Systems" patented technologies operate using this optimum material to harness the spin of electrons in iron atoms, producing five units of energy output for every single unit of input. Given the abundance of iron and low-cost production methods of the electrical steel alloy, this redesign will have a profound impact on the ...

--via InvestorWire- Astra Energy Inc., and Holcomb Energy Systems LLC are proud to announce a new joint venture, Astra-Holcomb Energy Systems LLC to commercialize the HES In-Line Power Generator ...

Dr. Holcomb has also patented numerous environmentally friendly products, processes, and devices, including a CO2 converter that captures CO2 in power plant emissions and in the atmosphere and ...

Ellen Holcomb führt uns durch das Labor. Die erstaunlichste Erkenntnis unseres Besuches bei Holcomb Energy Systems war tatsächlich der gelungene Anschluss an das Räderwerk der Natur, so wie Nikola Tesla es vor 100 Jahren vorausgesagt hat.

Over the years, Holcomb Energy Systems has achieved several notable milestones and achievements. In 2012, the company partnered with the U.S. Department of Defense to develop a microgrid system for a military base in Texas, which reduced the base's reliance on fossil fuels and increased its energy security.

Medium: Harnessing the Energy from the Electron Spin of Iron Atoms to Create Zero Emissions Energy Generation . Korea IT Times: An Interview with Dr. Robert Holcomb MD, Ph.D., Inventor of the Holcomb Energy System . Renewable Energy World: Breakthrough Purports Answer to Global Warming . Highways Today: Holcomb Scientific Research unveils new ...

About Holcomb Energy Systems. Holcomb Energy Systems is a research and development company focused on innovative clean energy technology within the energy sector. The company offers a new energy system, the Holcomb Energy System (HES), which generates electricity without fuel, emissions, or noise, and is scalable for various applications.

Our core technology, the Holcomb Energy System (HES), is an entirely new source of energy -- using no fuel and putting out zero emissions, it is scalable, silent, and point of use. It is applicable everywhere that electric power is ...

For over 15 years, Holcomb Energy Systems has been researching and developing a solid-state, self-sustaining power generation system with applications everywhere electricity is needed. Here's a video from the HES 2018 archive taken during a power blackout.
