Udo Bauer, CEO - Enercon, representing VDMA Power Systems; Luis Blanco, CEO - Nordex Group / Chairman ... To realise this vision, Latvia is planning to install 1.5 to 2 GW of additional wind energy capacity, said the Latvian energy minister Kaspars Melnis. "This minimises

The Nordex Group has had a business presence in the Baltic states of Estonia and Lithuania for many years already, and now the company will also branch out for the first time in Latvia. Sia Laflora Energy, a subsidiary of peat extraction and processing company Laflora, has placed an order for the supply and installation of 16 N175/6.X turbines.

Mates uzņemums Nordex SE ir kotēts Frankfurtes fondu biržā, un tā galvenā mītne atrodas Hamburgā. Pirmais projekts Baltijā būs Latvijas lielākajam enerģijas ražotājam AS Latvenēģo piederēģajam SIA Laflora Energy.

The analysis considers wind turbines manufactured by the leading European producers - Nordex, Vestas, Enercon and Siemens. The study is based on 10-min measurements of wind speed ...

German wind turbine maker Nordex SE announced today that it has been selected by a unit of peat extraction and processing company Laflora to supply the turbines needed for a 108.8-MW wind farm in Latvia, its first order in the country.

Rostock -- German wind-turbine manufacturer Nordex Group has announced that it is expanding into Latvia with a major order for a wind farm in the Baltic state. Sia Laflora Energy, a subsidiary of the peat extraction and processing company Laflora, has placed an order for the supply and installation of 16 N175/6.X turbines, Nordex said on Thursday.

Consolis Latvia, together with Nordex, hopes to contribute to building a greener future for the Baltic States. With a total installed capacity of 108.8 MW, the Laflora wind farm will be an important addition to the availability of green energy in Latvia, reducing CO₂ emissions in the local energy portfolio.

Peat extraction company Laflora has ordered 16 Nordex turbines for a 109MW onshore wind project to the southwest of Latvia's capital city Riga. The Laflora wind farm was developed by Latvian firm Windy on behalf of Laflora.

The Nordex Group will install the N175/6.X turbines on internally developed hybrid towers with hub heights of 179 metres and will deliver the machines in the cold climate version available at the company. This is the first order in Latvia for the Nordex Group and the first major order for the N175/6.X turbine in the Baltics.
