

Who is Livent & allkem?

Livent is a global leader in lithium processing technologies with nearly eight decades of experience producing a diverse range of lithium chemicals for energy storage and other specialty applications. Allkem brings complementary expertise in conventional brine-based lithium extraction, hard rock mining, and lithium processing.

Are Livent & allkem a good investment?

Livent and Allkem have now merged into a new top lithium company: Arcadium Lithium. On their own, Livent and Allkem were highly profitable. Together now as Arcadium, they could be in a great position to keep that run going. The lithium market is highly volatile right now, so investors should exercise some prudence.

Where are Livent & allkem based?

Additionally, Livent has a mining and refining operation under development in Quebec, Canada (the Nemaska Lithium project). Allkem is primarily a raw lithium miner, with projects cranking out the chemical in Argentina and Western Australia, a new project in development in Quebec, and a small refinery wrapping up construction in Japan.

What's happening between allkem & Livent?

Additional synergies expected beyond CY'27E Allkem (ASX:AKE) and Livent (NYSE:LTHM) today announced the signing of a definitive agreement ("Transaction Agreement") to combine the two companies to create a leading global lithium chemicals producer ("NewCo"), (the "Transaction").
