

Power - Energo Company is purely Czech owned and was established in 2006. It soon became one of the most prominent suppliers of transformers (oil, dry, power) on the domestic market for various industrial applications, tertiary sectors, transportation or renewable resources.

While it's necessary to incorporate renewable energy to ease pressure on the environment, it could require residents and businesses alike to make changes. Macao needs to be prepared to practice conservation, shift energy-intensive activities to off-peak hours to avoid outages, and plan for a period of instability during the transition.

Spolecnost Power-Energo se stala na cesk&#233;m trhu v&#253;znamn&#253;m dodavatelem technologii&#237; nejruznejs&#237;ch aplikac&#237; vysok&#233;ho napet&#237;. &#218;spesne jsme realizovali radu dod&#225;vek kompletne vybaven&#253;ch betonov&#253;ch kioskov&#253;ch trafostanic.

OverviewTransmission and distributionHistoryPerformanceGenerationShareholdersOrganizational structuresSee alsoThe Macau electricity transmission network comprises 25 primary substations, 8 customer high-voltage switching stations and 953 kilometres of 66 kV, 110 kV and 220 kV high-voltage cables. The Macau electricity network is connected to China Southern Power Grid via two 110 kV cables and two 220 kV cables. The two 110 kV cables are connected to Gongbei Substation and Nanping Substation, while the two 220 kV cables are connected to Zhuhai Substations and Qin...

Our company also individually provides hermetically sealed oil transformers, dry cast resin transformers and power transformers up to 245 kV. Last but not least, we are able of course to separately provide high voltage switchgear up to a rated voltage of 40,5 kV.

Currently, the Guangdong-Macau power grid is linked by eight circuits of 220kV main supply lines and four circuits of 110kV backup lines, forming a transmission network with three 220kV interconnections, namely the "North, Central and South", with a ...
