

Does FedEx ship lithium batteries to Malaysia?

FedEx Express accepts no liability for loss or damage resulting from changes, errors, omissions, or misinterpretations of these materials. Shipping lithium batteries can be complicated, but FedEx provides all the information you need to ship batteries safely to and from Malaysia.

Can You ship lithium ion batteries on a plane?

The UN banned the transportation of standalone lithium-ion batteries on passenger aircraft. To ship standalone lithium-ion batteries and lithium batteries on passenger aircraft, it's necessary to have a special permit from an authorised body. Standalone battery shipments are no longer covered by Section II.

Where can batteries be shipped?

Batteries can be shipped on all main modes of transportation used in logistics: air, ocean, road, and rail. However, there are some different regulations and requirements depending on the mode of transport. Below we cover general guidelines applicable to all transport modes, but check the following dangerous goods regulations for specific info:

Are batteries allowed to be shipped?

However, they still require proper packaging and handling to avoid damage and potential short circuits. With regards to what batteries are not allowed to be shipped, damaged or defective batteries should never be shipped due to the increased risk of safety hazards.
