

"The Republic of the Marshall Islands (RMI) submitted its second NDC in 2018 at COP 24 in Katowice, making it the first country in the world to do so. The revised NDC set binding targets of reducing greenhouse gas emissions by 32 percent below 2010 levels in or before 2025 and by 45 percent before 2030.

Island Eco is a social entrepreneurship, doing business and implementing projects in rural electrification and renewable energy in the Marshall Islands since 2001. Its mission and the goals are in line with the National Energy Plan, which strives for 20% of energy to come from renewable sources by 2020.

Building and maintaining renewable energy in the Marshall Islands will help create jobs and improve the health of the population. Renewable energy systems will allow for more affordable and safer access to electricity.
