The planned joint venture will manufacture battery cells for electric commercial vehicles and industrial applications, creating highly desirable U.S. manufacturing jobs in the growing clean technology sector. Total investment is expected to be in the range of \$2-3 billion for the 21-gigawatt hour (GWh) factory.

Excitement was contagious at the groundbreaking for a vehicle battery cell manufacturing facility at its megasite off Highway 72 in Marshall County, Thursday, June 28. Lithium Iron Phosphate batteries that will power trucks will be made at the 500-acre facility.

The MOU allows Enovix to fast track and utilize Elentec"s battery pack design and high-volume manufacturing capability, while setting up the framework for definitive long-term supply and/or joint manufacturing agreements leveraging Elentec"s footprint.
