

What is a Mars battery system?

MARS series is an integrated battery system that stores solar energy for backup, so when the grid goes down your power stays on. When system detects outage, automatically recharges with solar energy. How does it Work at Home? With modular design, compatible with a variety of home styles and solar systems.

What's new at marstek energy?

As a result, we proudly introduced the world's first household micro-solar battery storage system. Marstek Energy participated in the IFA exhibition held in Berlin, Germany on September 1st. MARSTEK is also set to participate in the Solar Power International exhibition (RE+) in Las Vegas on September 11th.

What is marstek B2500?

*Marstek B2500 is our latest easy-to-install balcony solar storage system. B2500 enables you to optimize your energy usage and reduce your electric bill. Saving you up to EUR1200 euros per year.

Can the marstek B2500 be used with solar panels and micro inverters?

*Note: The B2500 must be used with solar panels and micro inverters to form a complete balcony energy storage system. Marstek smart meter monitors the total electrical consumption in a household and transmits this data to a device like the B2500.

Who is marstek energy?

Marstek Energy is a manufacturing firm established in 2009. MARSTEK is committed to providing affordable clean energy products for every family. MARSTEK is dedicated to self-developed lithium iron phosphate laminated cells, and we have successfully achieved a number of technological innovations.

What is a marstek smart meter?

Marstek smart meter monitors the total electrical consumption in a household and transmits this data to a device like the B2500. Its main role is to provide real-time information about home energy usage, enabling efficient energy allocation and preventing wastage. Not designed to allocate power based on individual room needs.
