

Where can I buy used solar panels?

eBay: This well-known platform offers a wide selection of used solar panels. When searching on eBay, use filters to narrow down your options by wattage, voltage, and location. For example, searching for "250W used solar panels" in your state can help you find local deals. Look for sellers with high ratings and detailed product descriptions.

How do I find a solar installer near me?

To find local installers, search for "solar installers near me" and call a few to inquire about used panels. Craigslist and Facebook Marketplace: These platforms are popular for individual sellers. Prices can range from \$0.10 to \$0.75 per watt, significantly lower than new panels.

What are the best solar e-commerce platforms?

Sunhub: As a specialized solar e-commerce platform, Sunhub offers both new and used panels. Their user-friendly interface allows you to compare different options easily. They often provide detailed specifications and sometimes even performance history for used panels. SecondSol: This platform focuses on reputable brands and has a global reach.
