

How many solar power plants are there in Moldova?

According to the Ministry of Moldova in the whole country there are currently 52 PV-power plants of different sizes with a total capacity of 2.93 MW, which means this new solar park in Bacioi village makes a significant contribution to the increasing green energy supply.

Does Moldova have a potential for wind & solar PV?

Though it is estimated that Moldova has significant technical potential for wind and solar PV (IRENA, 2019), by the end of 2020, only 72.91 MW had been realised.

Is Moldova a member of the Energy Community?

In 2010, the Republic of Moldova (hereafter "Moldova") became a full-fledged member of the Energy Community, which implied a commitment to adopt core European Union (EU) energy legislation. This has been reflected in its National Energy Strategy (NES) for 2030 which has three key objectives:

Why should Moldova invest in a solar park?

Chiril Gaburici, the Minister of Economy and Infrastructure is very enthusiastic about the project: "This solar park is an important milestone for Moldova's energy sector. It reduces our dependency on imported energy. Furthermore, the production of green energy is a clear commitment to the environment."

Who built a solar park in Moldova?

The project was commissioned by the Italian companies Fly Ren Energy Group and Consulcesi Tech and built by Iqony Sens (formerly known as GILDEMEISTER energy solutions). Chiril Gaburici, the Minister of Economy and Infrastructure is very enthusiastic about the project: "This solar park is an important milestone for Moldova's energy sector."

Should Moldova develop renewable electricity?

Developing renewable electricity would not only help Moldova achieve its National Energy Strategy and increase the country's energy security, but would also bring significant socioeconomic and environmental benefits.
