

Elektroprivreda Crne Gore, owned by the Government of Montenegro, started the preparations to install battery energy storage systems. It is a pioneering move among state-owned power companies in the Western Balkans as well as in Southeastern Europe.

4 ???&#0183; Erste Bank reduces interest rates on personal, refinancing and home loans, expands loan limits 12/12/2024; EPCG to launch tender for 300 MWh battery systems by year-end as part of green transition plans 12/12/2024; Montenegro Government approves Amendments to Pension and Disability Insurance Law 12/12/2024

4 ???&#0183; Erste Bank reduces interest rates on personal, refinancing and home loans, expands loan limits 12/12/2024; EPCG to launch tender for 300 MWh battery systems by year-end as ...

Elektroprivreda Crne Gore (EPCG), the largest state-owned power company in Montenegro, has taken a significant step in energy innovation by preparing to install battery energy storage systems (BESS). This initiative is a first for the Western Balkans and Southeastern Europe, marking a crucial development in the region's energy landscape.

Montenegro's largest power utility, EPCG, said it plans to develop lithium-ion battery energy storage systems at four locations in order to harness excess renewable energy production and ensure the flexibility of the power system.

2 ???&#0183; Montenegrin power utility Elektroprivreda Crne Gore (EPCG) will launch by the end of 2024 a project for the development of battery energy storage systems (BESS), the head of the ...

Elektroprivreda Crne Gore (EPCG), the largest electricity producer in Montenegro, has taken a significant step towards enhancing energy sustainability by adopting the Project Task for Battery Electro-Storage Systems (BESS). This project aims to support the country's transition to renewable energy by providing a solution for storing excess ...

Phase 1 includes the development of approximately 200 MW of solar power plants in Velje Brdo & Dinosa, along with approximately 50 MW / 100 MWh of battery energy storage. Aligning with Montenegro's ambitions. During Phase ...

BESS technology will enable the storage of surplus energy generated from renewable sources, reducing reliance on fossil fuels and supporting sustainable development. The project plans to use existing grid infrastructure for connecting to the transmission network, with proposed locations including the Hydro Power Plant (HPP) Perucica, EPCG's ...

EPCG Launches Montenegro's Largest Battery Storage Project. Elektroprivreda Crne Gore (EPCG), Montenegro's leading electricity company, has begun preparations on the installation of 245 MWh of battery energy storage systems (BESS). This step marks an important milestone in the region's energy evolution.

2 ???&#0183; Montenegrin power utility Elektroprivreda Crne Gore (EPCG) will launch by the end of 2024 a project for the development of battery energy storage systems (BESS), the head of the company's board of directors, Milutin Djukanovic, said.

Elektroprivreda Crne Gore, owned by the Government of Montenegro, started the preparations to install battery energy storage systems. It is a pioneering move among state-owned power companies in the Western ...

Phase 1 includes the development of approximately 200 MW of solar power plants in Velje Brdo & Dinosa, along with approximately 50 MW / 100 MWh of battery energy storage. Aligning with Montenegro's ambitions. During Phase 2, UGT Renewables will develop large-scale pump storage in Decidi, Marvucici, Gurza, and Lukici.
