

NRG Energy, Inc. is an American energy company, headquartered in Houston, Texas. [2] [3] It was formerly the wholesale arm of Northern States Power Company (NSP), which became Xcel Energy, but became independent in 2000. NRG Energy is involved in ...

NRG Energy, Inc. es una compa a de energ a estadounidense, con sede en Princeton, Nueva Jersey [4] [5] y Houston, Texas. [1] [6] [7] Anteriormente, era el brazo mayorista de Northern States Power Company (NSP), que se convirti  en Xcel Energy, pero se independiz  en 2000.

"High Energy - Conjugando tiempo y estilo". As  sonaba el slogan del programa High Energy en la estaci n Stereo Cien, aquel 15 de Agosto de 1998. Hoy, a 26 a os que iniciaran sus ...

OverviewWholesale generationHistoryAcquisitionsProducts and ServicesGreen energy initiativesExternal linksAfter the GenOn merger in 2012, NRG had 47,000 MW of total generation capacity, enough to power approximately 40 million homes. Its nearly 100 power plants were located in 18 states in the Northeast, Chicago area, Gulf Coast, Southwest, Nevada, and California. Generation facilities include mostly fossil fuel power plants powered by natural gas, oil, and coal; plus four wind farms (in Texas) and six solar farms (in California, Arizona, and New Mexico). NRG also has a 44% owner...
