

Does Gibraltar need a cleaner liquefied natural gas (LNG)?

Until recently, Gibraltar's energy needs were 100% powered by marine diesel - so, a better solution was urgently needed- one that switches from diesel to cleaner liquefied natural gas (LNG).

Is Gibraltar switching from diesel to natural gas?

Gibraltar today saw the official opening of a liquefied natural gas (LNG) regasification terminal that was recently completed by Shell and Gasnor (a 100% Shell-owned subsidiary). As a result, Gibraltar is switching from diesel-fuelled power generation to cleaner-burning natural gas, using a newly commissioned 80-megawatt gas-fired power plant.

Why does Gibraltar need a LNG power system?

The people and businesses of Gibraltar will have better air quality, a quieter environment, and see the rewards of better energy efficiency. Michael Caetano, Chief Operational Officer of the Gibraltar Electricity Authority (GEA) When Gibraltar upgraded its nearly 40-year-old power system, they opted for a unique LNG solution.

En un mundo cada vez más responsable con el planeta, surge Natura Energy; a con una visión clara: crear un futuro donde la energía verde fluya de manera limpia, accesible y sostenible para todos.
