

Who is Navitas Systems LLC?

Navitas Systems LLC, a leader in comprehensive energy storage solutions, was formed in 2011 with the merger of MicroSun Innovative Energy Storage Solutions and MicroSun Electronics, and the acquisition of lithium battery company A123 Systems' Government Solutions Group, located in Ann Arbor, Michigan.

What does Navitas do?

Navitas has invested to be fully vertically integrated--everything from inventions in chemistry and battery cell design, to development and manufacturing of battery management system electronics, to complete design and assembly of very large lithium battery systems.

Where can I find information about Navitas Systems?

This information is available in the PitchBook Platform. To explore Navitas Systems's full profile, request access. Manufacturer and developer of energy-enabled system and energy storage products. The company's products are built for mo co laboris nisi ut aliquip ex ea commodo consequat.

Does Navitas have a manufacturing center?

Navitas Systems has both a 48,000 square foot R&D, Engineering, & Manufacturing Center, as well as a new 100,000 square-foot lithium battery pack Manufacturing Center.

What makes Navitas unique?

Navitas prides itself on applying military/industrial design and manufacturing principles to its product offerings, and invests whatever is necessary in people, processes, and facilities to make these products number one in their target markets.

Does ACP have a contract with Navitas Systems?

St. Clair Shores, MI (March 31, 2022) -- ACP Technologies LLC, a U.S. producer of high-performance, synthetic graphite for batteries, today announced it has entered into an agreement with Navitas Systems, a U.S. leader in comprehensive energy storage solutions and a U.S. Department of Defense (DoD) contractor. According to the contract,

Navitas Systems, founded in 2010 and previously known as MicroSun Innovative Energy Storage Solutions ("IESS"), is a woman-owned small business headquartered in Woodridge Illinois. Located in a state-of-the-art 100,000 square foot facility-with local and offshore partners and solid financial stability, Navitas is well positioned to continue ...

Navitas is unique in that: First, we have in-house R&D capabilities and are on the forefront of designing new battery chemistries; second, we have the best systems engineers to design these advanced cells into robust battery products and systems; and third, we operate one of the most flexible automated production lines for

manufacturing battery cells and battery systems.

Woodridge, IL -September 16, 2014 - Navitas Systems LLC (), a leading provider of energy-enabled system solutions, energy storage products, and power electronics for commercial, industrial and government/military customers, unveiled today at the annual industry conference "The Battery Show" a new product family of ...

Renewable Heating Systems. At Navitas we expect the sun to rise tomorrow, ground and air temperatures to remain relatively constant and, as a result, for trees and plants to carry on growing; therefore we consider solar thermal, heat pumps and Biomass to be renewable forms of heating and hot water. Given that it takes over 300 million years to ...
