But commercial solar lags behind the opportunity. We work with investors who seek the highest return on dollars and impact this asset class provides. We build portfolios for sponsor, tax equity and debt investors to quickly and efficiently acquire commercial solar at scale. Invest In Commercial Solar

The City of Boston has partnered with NextGrid Inc. which will build 100 megawatts (MW) of new solar PV modules within Massachusetts. When completed, the incentives from the new solar projects will result in an estimated \$72 annual savings for the average low-income household, and more than \$28 million over 20 years.

NextGrid works to bring a solar project to life: we manage environmental studies, design the system, secure permits, execute agreements and ultimately construct the project. 4. Operation. Once constructed, a solar farm generates power for 20-40 years. The farm is low maintenance, quiet and works every day that the sun shines.
