

Who built the first solar plant in North Macedonia?

The 10MW solar plant, built on the site of the spent Oslomej lignite coal mine, was constructed by the public company JSC Elektrani na Severna Makedonija (ESM). This is the company's first solar plant in North Macedonia, developed with a view to diversifying energy sources and supporting decarbonisation.

How will a new solar plant help Macedonia?

Andi Aranitasi, EBRD Head of North Macedonia, said: "The new solar plant will help the country, which faces severe air pollution from coal, to reduce its reliance on ageing coal-fired infrastructure. It will also generate cheap electricity in times of very high market prices.

How much solar power does North Macedonia have?

Solar power Built on a former lignite open pit mining site, North Macedonia's Oslomej solar park will have an installed capacity of 120 MW when fully completed. &#169; Ciril Jazbec

Where is JAHA SOLAR located?

Jaha Group has established the unit "JAHA SOLAR" and opened a factory for production of solar panels located in Fushë Kosovë. "JAHA SOLAR" factory was inaugurated on June 2 nd, 2016 at an initial capacity of the first production line of 50 MW per year, presenting the latest technology in the production of photovoltaic solar panels.

Should North Macedonia accelerate the transition to renewables?

Like others in the region, North Macedonia must balance its need to rapidly accelerate the transition to renewable to secure its energy future with the need to ensure that future is one where both the country's nature and people thrive.

Is North Macedonia a good place to invest in green energy?

Dimitar Kovacevski, Prime Minister of North Macedonia: "It is really a great pleasure to be here today, where once a big environmental polluter was located and now we are producing green energy. The benefits of this investment are manifold.

Solar photovoltaic (PV) panels have been installed on the rooftops of the 108 public buildings under the Government of North Macedonia's project. The EUR 20.6 million investment is planned to pay off in 7.5 years ...

Jaha Solar manufactures high performance and high quality photovoltaic solar panels according to IEC and ISO production standards. Our quality and certified products have opened the possibility to export photovoltaic panels to countries in the region and beyond.

With its abundant sunlight and favorable climate, the country is well-positioned to harness solar energy through photovoltaics (PV). This article explores the current state of solar energy in ...

Welcome to Jaha Solar, a dynamic leader in the renewable energy sector, specializing in Engineering-Procurement-Construction (EPC) and photovoltaic (PV) production. Since our inception, we have successfully completed 100+ industrial rooftops with over 25 MW in Kosovo, Montenegro, Albania and North Macedonia.

Jaha Solar manufactures high performance and high quality photovoltaic solar panels according to IEC and ISO production standards. Our quality and certified products have opened the possibility to export photovoltaic panels to countries ...

Slovenia-based GEN-I connected its 17 MW solar power plant southeast of Skopje to the grid four months before the deadline. It is the largest photovoltaic facility in North Macedonia and the Western Balkans.

Jaha Solar është lider në sektorin e energjisë diellore dhe inovacionit në vendin tonë. Jaha Solar prodhon panele diellore fotovoltaike me performancë të lartë dhe cilësi të lartë sipas standardeve të prodhimit IEC dhe ISO.

Jaha Solar është lider në sektorin e energjisë diellore dhe inovacionit në vendin tonë. Jaha Solar prodhon panele diellore fotovoltaike me performancë të lartë dhe cilësi të lartë sipas ...

With its abundant sunlight and favorable climate, the country is well-positioned to harness solar energy through photovoltaics (PV). This article explores the current state of solar energy in North Macedonia, the opportunities for growth, and the challenges that must be addressed to ...

The results of the study are unambiguous: North Macedonia has an enormous untapped potential for renewable energy development. Even when completely excluding all important bird and plant areas, the potential comes to ...

The government of North Macedonia has recently improved the net metering scheme for solar installations and has launched a EUR1 billion rebate scheme to support the deployment of rooftop PV ...

Supported by the Kosovo Foundation for Open Society and implemented in cooperation with the Municipality of Prishtina and Jaha Solar, this project aims to promote energy transition by increasing clean and renewable energy production capacities -- as well as by enabling public schools to reduce their costs in energy and use these means for ...

Solar photovoltaic (PV) panels have been installed on the rooftops of the 108 public buildings under the Government of North Macedonia's project. The EUR 20.6 million investment is planned to pay off in 7.5 years and reduce CO2 emissions and energy costs.
