Find the correct commodity code in the Customs Tariff To classify goods in the Customs Tariff means to find a commodity code. Once you have found the correct commodity code you will find, among other things, the duty rate and if any prohibitions and restrictions may apply for your item.

The 8-digit commodity codes now have an addition that shows the year when each code was first used. The data material in the External trade in goods statistics is very extensive, and at the most detailed level the quality can vary.
