

Thank you for your attention to Nuuko Power! Please provide your contact information in the right column. We will arrange the sales manager to get in touch with you as soon as possible to help you find the solar products or solutions that meet your needs and goals.

We are committed to producing high-efficiency solar panels with a wide range. Including commercial solar panels, residential solar panels, industrial solar panels, etc. Learn more here!

The company offers a range of products including uninterruptible power supplies (UPS), power inverters, and battery management systems. Nuuko Power focuses on delivering reliable and efficient energy solutions designed to ensure uninterrupted power and optimize energy use in both residential and commercial applications.

The business covers the development and investment of silicon wafers, solar cell, solar panel and photovoltaic power plants, solar energy system integration and sales, etc. Up to now, it has provided solar modules, system solutions and customized services for more than 40 countries around the world.

Nuuko Power Is A New Energy Company Focusing On Photovoltaic Module Production, Photovoltaic System Solutions, Photovoltaic Power Station Development And Investment, And Multi-Scenario Customized Services. The Core Members Of The Company Have More Than 10 Years Of Experience In The Photovoltaic Industry.

NUUKO products are widely used in ground power stations, industrial and commercial rooftop solar systems and residential rooftop solar systems. Relying on continuous technological innovation advantages, as well as a complete global sales and service network, NUUKO's products and services are highly recognized and appreciated by customers.

NUUKO has created a "closed-loop" development model of solar module R& D and production, and distribution cooperation. Its business also covers power station development and investment, solar system integration and sales, etc. Products have been approved by international certification like TUV, CE, CEC, CB, DEKRA, INMETRO, RETIE etc.

This is our PV system project in Italy, total capacity 320KW, using NUUKO brand 550W solar panel total 589pcs! NUUKO provides customers with a complete set of solutions, design drawings and technical guidance to help customers successfully complete the installation and grid connection.

The company develops and invests in silicon wafers, solar cells, solar panels, and photovoltaic power plants, as well as integrates and sells solar energy systems. It has previously offered solar modules, system solutions,

and customized services in over 60 countries worldwide.
