

Who owns OXIS Energy?

Johnson Matthey, a global leader in sustainable technologies, today announced its acquisition of the assets and intellectual property of Oxis Energy Limited, based near Oxford, UK. Oxis Energy was a lithium-sulfur battery developer with assets which can be adapted for the manufacture of components for green hydrogen production.

Does Johnson Matthey own OXIS Energy Limited?

Johnson Matthey has acquired the assets and intellectual property of Oxis Energy Limited, a lithium-sulfur battery developer with assets that can be adapted for the manufacturing of components for green hydrogen production. The company, based near Oxford, UK, entered administration on 19 May 2021.

What is OXIS Energy developing?

Oxis Energy is developing new rechargeable lithium sulfur batteries for aviation applications.

What is OXIS Energy doing with a lithium-sulfur battery?

One of the lithium-sulfur batteries produced by Oxis Energy, with a battery cell alongside. Image: OXIS Energy. The site will also enable the production of tens of thousands of catalyst coated membrane parts per year - enough to equip hundreds of megawatts of electrolyser capacity.

Why did OXIS acquire green hydrogen?

Eugene McKenna, Managing Director Green Hydrogen, commented: "Acquiring Oxis Energy's assets enables us to support our customers as they meet the strong demand for proton exchange membrane electrolyzers used to produce green hydrogen.

Where does OXIS Energy manufacture Li-s cells?

Oxis Energy rented a production facility from Mercedes-Benz Brazil in Juiz de Fora in 2020 for manufacturing Li-S cells. As recently as April 2021, the company announced that it would deliver the first Li-S cells to customers and partners for testing this autumn.

August 5, 2021: The sale to Johnson Matthey of Oxis Energy, the lithium sulfur battery developer, was finalized on July 28 just over two months after the company was placed in administration on May 19. BDO, the business restructuring firm brought in to deal with the sale, said Johnson Matthey would take over the premises in Oxfordshire and ...

OXIS Energy Ltd is involved in the design, development and now the move towards commercial production of lithium sulfur cells for battery systems. OXIS manufactures and produces all aspects and ...
