

Who is greenenco?

GreenEnco is a renewable energy advisory firm. We provide strategic and risk management consulting services including technical and financial services across the complete solar PV life cycle and energy storage. GreenEnco aims to offer a smart energy solution with its energy management and energy efficiency services. © greenenco.co.uk.

How can greenenco improve the value of a project?

GreenEnco has developed innovative design optimisation solutions to increase the value of a project from the concept to the operational phase of a project. GreenEnco's newly developed tool can perform a technical and commercial assessment of solar and battery storage projects for commercial and domestic applications.

Who is a senior system design engineer at greenenco?

Alexis a Senior System Design Engineer at GreenEnco. He has a MSc Computer and Network Engineering, BEng Electrical and Electronic Engineering and BSc Computer Systems Engineering. He has 6 years of experience working as a design engineer and SCADA engineer.

Who is Binoy & what is he doing at greenenco?

Binoy is a Solar Data Analyst & IT Team Lead at GreenEnco. Binoy has a B.Tech in Electronics & Communication Engineering. He has 9 years of experience with a diverse background spanning both the Information Technology and Renewable Energy Sectors.

What does Suman & Binoy do at greenenco?

Joining as Country Head cum Head-Sales & Business Development and General Management, Suman will be responsible for strategic, financial, sales, promotions, and other operational aspects of the company and help the company achieve sustainable growth. Binoy is a Solar Data Analyst & IT Team Lead at GreenEnco.

Why should you invest in greenenco's APM?

GreenEnco's APM can increase the Energy Efficiency of an existing solar system, which ultimately increases the contribution of green electricity to the overall energy mix, resulting in additional decarbonisation and helping gain investors' confidence. APM is a unique solution to a large volume of underperformance solar assets across the globe.

Total Eren, a leading renewable Independent Power Producer ("IPP") based in Paris, is pleased to announce its first steps in the Philippines in partnership with Mabalacat Solar Philippines Inc., a renewable energy corporation based in Manila, and Singapore based Sindicatum Renewable Energy, to build a total of 135 MWp of utility-scale solar power plants in ...

In a historic move towards a sustainable and environmentally friendly energy source, the provincial government of Davao Oriental has taken a significant step by signing a Memorandum of Agreement (MOA) with Dy Green Energy, a power generation company, to explore the development of the province's very first 50-megawatt (MW) solar power plant.

Looking towards the future, Marubeni expressed interest in sustainability initiatives, including Smart Grid and Floating Solar projects in New Clark City, and exploration of Offshore Wind Power Projects to harness renewable energy sources in the Philippines.

Basic Energy Corp. has signed an MOU with Pangasinan Electric Cooperative I (PANELCO) to conduct studies for a planned 50MW solar power project, consisting of 10MW and 40MW phases. The collaboration focuses on distribution impact and asset studies to optimize networks and enhance reliability in Pangasinan.

GreenEnco's APM can increase the Energy Efficiency of an existing solar system, which ultimately increases the contribution of green electricity to the overall energy mix, resulting in additional decarbonisation and helping gain investors' confidence. APM is a unique solution to a large volume of underperformance solar assets across the globe.

Unilever Philippines takes significant steps towards sustainability by signing a 15-year Power Purchase Agreement with Green Yellow to supply solar-powered electricity for its factory operations in Cavite. Learn ...

With the Universal Power Platform (UPP) from DHYBRID, solar power now covers a large proportion of the hotels' requirements during the day. The project was implemented in collaboration with Urba Solar Philippines and ...

President Ferdinand Marcos Jr. and Indonesian President Joko Widodo oversee the signing of a crucial Memorandum of Understanding (MOU) on energy cooperation, aiming to enhance collaboration on renewable energy, demand-side management, and alternative fuels. Energy Secretary Raphael P.M. Lotilla highlights the importance of this agreement in ...

This subscription marks a significant step in ACEN's renewable energy endeavors, emphasizing its dedication to sustainable development in the Philippines. The investment will provide additional funding for Giga Ace 8, Inc.'s renewable energy projects, contributing to the country's clean energy transition.

Greenko Solar Energy Private Limited is a Private incorporated on 16 April 2010. It is classified as Non-government company and is registered at Registrar of Companies, ROC Hyderabad. Its authorized share capital is Rs. 20,000,000,000 and its paid up capital is Rs. 9,278,514,640.

In a strategic move towards sustainable development, Iloilo Province attracts substantial investments in renewable energy. Three significant proposals, including a 35-megawatt solar farm by Palm Concepcion

Power Corp's Solaris Company in Ajuy, signify a commitment to the Government Energy Management Plan (GEMP) and Provincial Ordinance ...

GreenEnco is a Technical Advisor and engineering solution provider to solar and energy storage projects. We have provided over 11 GW services in 16 countries in the last 6 years. Our service offerings are strengthened by over 100 years of cumulative experience of our teams with operational excellence. ... The GreenEnco Ltd annual revenue was \$1 ...

The Department of Energy (DOE) Philippines will hold Green Energy Auction 4 (GEA-4) in Q4, focusing on Integrated Renewable Energy and Energy Storage Systems (IRESS). ... SolarQuarter is one of the world's largest global solar energy sector media with an annual reach to 1,000,000+ industry professionals. We bring to you the most exciting ...

We provide strategic and risk management consulting services including technical and financial services across the complete solar PV life cycle and energy storage. GreenEnco aims to offer a smart energy solution with its energy management ...

Huawei Digital Power launches its Smart Home Energy solution in the Philippines, offering cutting-edge solar energy systems with energy storage for residential customers.
