

Who issued the first electricity storage license promise in Poland?

The promise was issued by the President of the Energy Regulatory Office. PGE Group is working on the largest energy storage facility in Europe. The project obtained the first license promise in Poland for electricity storage.

Is a 50MW project a key market for energy storage in Poland?

The acquisition of two 50MW projects totalling 400MWh of capacity marks the developer's first entry into Poland, which is fast becoming a key market for energy storage in the Central and Eastern Europe region.

Could PGE Group be a 'Energy Transition Champion' in Poland?

If the European Commission does not lose sight of the common climate target shared by all Member States, PGE Group has a real chance of becoming an energy transition champion in Poland and contributing significantly to the target emission reduction across the European Union. EURACTIV Special Reports...

Will PGE open a tender for a Bess project in Poland?

State-owned PGE Group, which is Poland's largest power producer by sales revenue and net profit, said earlier this month that it will open a tender for contractors to work on the country's biggest planned BESS project to date.

What is PGE Polska Grupa Energetyczna about?

PGE Polska Grupa Energetyczna has planned its transition with a commitment to meet the expectations of its customers, who want to live in a clean environment, enjoy energy security and pay acceptable energy prices.

Does Poland have a helmsman for the energy transition?

The energy transition in Poland has no helmsman. There is no single centre to manage the process, so the changes taking place are chaotic. Poland has never offered a comprehensive vision for the decarbonisation of the economy or a plan to reduce dependence on energy resources imported from abroad.
