

What will Sunnova do for Puerto Rico?

Sunnova will aim to provide up to 20% of Project Hestia loans to homeowners in Puerto Rico. All installations on the island will include both solar and battery storage, a clean and reliable energy solution that can provide power to homes during severe weather events, often when grid infrastructure on the island is damaged.

Does Puerto Rico have a new energy program?

Additionally, with funding from the U.S. Department of Housing and Urban Development, the Puerto Rico Department of Housing launched the \$350 million New Energy Program in March 2023 to assist very-low income households with solar energy and energy storage installations.

What is the Puerto Rico energy resilience fund (PR-ERF)?

In December 2022, President Biden authorized \$1 billion for the establishment of the Puerto Rico Energy Resilience Fund (PR-ERF), administered by DOE's Grid Deployment Office (GDO). The PR-ERF is a separate federal funding source to drive key investments in renewable and resilient energy infrastructure in Puerto Rico.

Will Sunnova offer a partial loan guarantee?

If finalized, the partial loan guarantee would enable Sunnova to provide loans for clean energy systems for approximately 75,000 to 115,000 homeowners throughout the United States, including Puerto Rico.

Who is eligible for rooftop solar financing in Puerto Rico?

All homeowners in Puerto Rico are eligible for financing but are required to meet certain conditions and underwriting criteria. Interested homeowners in Puerto Rico are encouraged to visit Sunnova's website to learn more about rooftop solar financing through this initiative.

Sunnova is proud to have been selected by the U.S. Department of Energy (DOE)'s DOE Grid Deployment Office as one of the eight organizations to receive part of a \$440 million commitment to install rooftop solar and batteries in vulnerable single-family households across Puerto Rico through the Puerto Rico Energy Resilience Fund (PR-ERF).
