Why is the South Georgia & South Sandwich Islands marine protected area undergoing a review?

The South Georgia and South Sandwich Islands Marine Protected Area is undergoing its second five-yearly review. Recovery of baleen whales coupled with climate change, means managers must be alert to alternative future ecosystem states. Areas of little economic interest within the MPA remain data poor with little monitoring.

What are the priority recommendations to the South Georgia & South Sandwich Islands MPa review?

Priority recommendations to the South Georgia and South Sandwich Islands MPA Review (see main paper for more details) include: 1. Implement the revised CCAMLR management framework for the krill fishery, with initial priority emphasis on the winter period at South Georgia.

Who owns South Georgia and the South Sandwich Islands?

The United Kingdom claimed sovereignty over South Georgia in 1775 and the South Sandwich Islands in 1908. The territory of "South Georgia and the South Sandwich Islands" was formed in 1985; previously, it had been governed as part of the Falkland Islands Dependencies.

What is the future of South Georgia & the South Sandwich Islands?

The future management of South Georgia and the South Sandwich Islands For more than two centuries, exploitation of the wildlife of South Georgia and the South Sandwich Islands has provided revenue, albeit interrupted as serial overharvesting has destroyed stocks, in some instances taking species to the verge of extinction (see Introduction).

What happened to South Georgia and the South Sandwich Islands?

In 1985, South Georgia and the South Sandwich Islands ceased to be administered as a Falkland Islands Dependency and became a separate territory. The King Edward Point base, which had become a small military garrison after the Falklands War, returned to civilian use in 2001 and is now operated by the British Antarctic Survey.

South Sandwich Islands is located in the South Georgia and the South Sandwich Islands of the Southern Ocean. The area is within a chain of 11 volcanic islands in the southwest Atlantic section of the Southern Ocean (Belchier et al. 2022). This archipelago forms part of the Scotia Arc, a submarine
