

Where can refudrive be used?

Wherever electrification of mobile machinery and commercial vehicles is in demand. Whether in automated vehicles for container transport, in machinery for agriculture or construction applications or for modern municipal vehicles and e-busses - the system solutions from REFUdrive can be used flexibly, efficiently and sustainably.

What can refudrive do for You?

May hope, peace, joy, and love fill your homes and your hearts. E-mobility made easy - with REFUdrive! We at REFUdrive make it easy for you to electrify mobile applications! From the idea to series production, we support you throughout the entire product realisation process - flexibly, efficiently and with the highest precision.

Does refudrive support gozero?

In this way, we not only live up to our own claim, but also effectively support the "GoZero" initiative of the PRETTTL Group, the parent company of REFUdrive.

How can refudrive help you e-mobility?

E-mobility made easy - with REFUdrive! We at REFUdrive make it easy for you to electrify mobile applications! From the idea to series production, we support you throughout the entire product realisation process - flexibly, efficiently and with the highest precision. München, Messe München, Hall B4, Stand 100/8 Cologne, Kölnmesse, Stand: 6020

Refu Elektronik - 317/21 repair options: Standard Repair - Up to 10 working days* Emergency Repairs - Up to 3 working days.* ...

Die Firma REFU Drive GmbH wird im Handelsregister beim Amtsgericht Stuttgart unter der Handelsregister-Nummer HRB 769667 geführt. Die Firma REFU Drive GmbH kann schriftlich über die Firmenadresse Marktstraße 185, 72793 Pfullingen erreicht werden.

Der REFUstor Batterie-Wechselrichter basiert auf der neuen Wechselrichter-Plattform von REFU. Dieser Wechselrichter ist speziell für alle Hochspannungsbatterien ausgelegt. Mit einer Nennleistung von 88 kW bei 400V ist er perfekt für kommerzielle Anwendungen hinter dem Meßgerät wie Eigenverbrauchsoptimierung oder Peak-Shaving geeignet.

Leistungselektronik ist seit jeher die Kernkompetenz von REFUdrive. Gemeinsam mit unseren Kunden entwickeln wir genau die Lösung, die zu der jeweiligen Anforderung passt. Ob in automatisierten Fahrzeugen für den Containertransport, Land- und Baumaschinen oder Kommunalfahrzeugen - unsere Lösungen sind flexibel, effizient und nachhaltig einsetzbar.

customization for the particular drive task at hand. All requirements, from a simple VFC (voltage frequency control) drive to a highly dynamic FVC (flux vector control) drive can be covered with 2 different control components. Indramat Refu has developed its own patented flux vector current regulator for this. The system offers drive converters in

REFUdrive 500 RD51 Description Description The REFU drive 500 drive converters REFU drive 500 is a state-of-the-art three-phase drive system for various types of synchronous- and induction motors which can be universally used. The drive converters can be flexibly adapted to the particular drive task as a result of the modular hardware and ...

Innovative Antriebslösungen sind gefragter denn je. Als Systempartner für mechatronische, elektrische und elektrohydraulische Lösungen entwickeln und produzieren wir leistungselektronische Komponenten für die Elektrifizierung von Nutzfahrzeugen und mobilen Arbeitsmaschinen. Unsere Technologie ist der Antrieb für eine grüne Zukunft.

Gestalten Sie Ihre Antriebslösung, Ihren eigenen drive. UNSERE KOMPONENTEN FÜR IHR MEHR AN FLEXIBILITÄT. Damit in der Entscheidung zwischen elektrischem Antrieb und partieller Elektrifizierung zur Erhöhung des ...
