What is Renesola?

Renesola is a 9500 employee company that produces solar panels. It manufactures everything from silicon through to the finished product. Renesola has an international profile and headquarters and production lines situated in China,but commercial and marketing offices around the globe.

Why is Renesola moving to Europe?

In addition to de-emphasizing solar farm construction in favor of solar services and power production,ReneSola is also shaking up its geographic mix by moving aggressively into Europe and away from its home China market. The former focus looks driven by Europe's recent power shortagescaused by the war in Ukraine.
