

How interdisciplinary is research on natural resource exploitation in Western Sahara?

The production of research on natural resource exploitation in Western Sahara is accelerating. Yet this field remains interdisciplinary, and the work is carried out by researchers from academic, non-academic, and activist backgrounds, with sometimes very different aims and envisaged audiences.

Is natural resource exploitation a problem in Western Sahara?

As the issue of natural resource exploitation in Western Sahara has been conceptualised in very different ways and from the perspectives of a variety of disciplines, the authors have opted for a semi-systematic review of the work done encompassing academic, non-academic, and activist backgrounds.

What role did natural resources play in the Western Sahara conflict?

The majority of research undertaken from a historical perspective on the role of natural resources in the Western Sahara conflict focuses on phosphates. Both Lalutte (1976) and Camprub; (2015) see the potential exploitation of phosphates as the key factor in motivating Morocco to invade Western Sahara.

Is Morocco dependent on Western Sahara for its energy supply?

But these developments have made Morocco partly dependent on Western Sahara for its energy supply. Morocco already gets 18% of its installed wind capacity and 15% of its solar from the occupied territory, and by 2030 that could increase to almost half of its wind and up to a third of its solar.

Which NGO reports & non-fiction books are about resource exploitation in Western Sahara?

In this section, we review NGO reports and non-fiction books concerned with resource exploitation in Western Sahara. Western Sahara Resource Watch (WSRW), an NGO registered in Belgium, has been the most prolific in terms of publications in this area.

Which natural resources are most critical of Moroccan exploitation of Sahrawi natural resources?

They are largely critical of Moroccan exploitation of Sahrawi natural resources. The resource that receives the most attention in both historical and NGO studies are phosphates, while the question of fisheries is the main focus of legal and political studies.

The multiple ecological crises provoked by human activities are linked to and exacerbate the other political, social and economic challenges currently faced by North Africa. 1 In Western Sahara, these challenges and crises are shaped by its continued condition as a colony. This report aims to contribute to conversations on a just transition - that is, a transition to ...

„Siemens Gamesa Renewable Energy hat keine Gespräche mit politischen Vertretern außerhalb der Regierung geführt. Es ist nicht die Aufgabe von SGRE, sich in politische Debatten einzumischen und politische Zustimmung für das Windparkprojekt zu suchen“, erklärte der
