Industrial motor-driven systems - including compressors, pumps and fans - are typically only around 36% efficient. With the right interventions, they can be optimised to hit 72%. This cuts energy waste, reduces cost and limits emissions. At a time when the energy crisis threatens to slow - or even reverse - progress on environmental and ...

In Germany, Brammer, Kistenpfennig, Sch&#228;fer Technik and ZITEC provide a comprehensive service program from 2 distribution centres and over 40 branches.
