

What makes RWE the best energy company we can be?

“The best energy company we can be!” With more than 125 years of successful history behind us, RWE has undergone fundamental change and is now a leading supplier of renewables worldwide. With wind farms, solar power and battery storage facilities in many countries. Even today, most of our core business is green electricity.

How much electricity does RWE produce?

In 2019, RWE produced a total of 153.2 TWh of electricity from the following sources: 33.2% natural gas, 32% lignite, 13.8% nuclear power, 10.7% renewables, 9.3% hard coal and 1.2% pumped storage. In 2019, the company generated 88.1 Mt of CO₂.

What happened to RWE npower plc?

In 2002, RWE acquired the British electricity and gas utility company Innogy for €3 billion (US\$4.3 billion). Innogy was subsequently renamed RWE npower plc. As a result of the assets swap with RAG AG, RWE gave away its stake in the power company STEAG. It received almost full control of the renewable energy company Harpen AG.

How many projects does RWE have?

RWE currently has 100 projects totalling 7.8 GW under construction in 10 countries. The company's investment and growth targets are backed by a broad and deep development pipeline across all technologies and markets. This comprises projects with a total capacity of more than 100 GW.

How does RWE contribute to the energy transition?

With massive investments in green technologies, RWE is making a significant contribution to the success of the energy transition and the decarbonisation of the energy system. While we continue to grow sustainably and profitably, we are consistently reducing our greenhouse gas emissions - in line with the 1.5-degree reduction pathway.

What offshore projects is RWE developing?

In addition, RWE is developing several offshore projects, such as the 1.6 GW Nordseecluster off the German coast, the Dutch 0.8 GW OranjeWind project, the Irish 0.8 GW Dublin Array project and the first phase of the US 1 GW (RWE share) Community Offshore Wind project in the New York Bight.
