

These containers are designed to revolutionize the renewable energy sector as Battery Energy Storage Systems (BESS), providing secure solutions for lithium battery storage in the automotive industry, electric vehicle maintenance workshops, and all sectors requiring lithium battery storage, charging, and handling.

Questi container sono progettati per rivoluzionare il settore dell'energia rinnovabile come Battery Energy Storage Systems (BESS), offrendo inoltre soluzioni per lo stoccaggio sicuro delle batterie al litio nel settore automobilistico, officine di manutenzione di veicoli elettrici e in tutti i settori che richiedono lo stoccaggio, la ricarica ...

Safeguard your investments with DENIOS" lithium-ion battery storage cases, engineered to provide unparalleled protection and security. Our robust containers are crafted with precision to shield your assets from potential risks during storage.

Ensure safe storage of your lithium-ion batteries with our specially designed RETRON containers. These protect your batteries from damage and minimize the risk of fire during charging, storage and transport. The different sizes of containers made of hot-dip galvanized steel offer the right solution for every battery size.

That are nothing more than containers for housing of suitable lithium batteries for energy storing at the service of the distribution network and photovoltaic and eolic plants. Containers made for energy storage can be equipped with all the necessary auxiliary systems, such as:

DENIOS offers a range of lithium-ion battery storage containers that meet stringent safety standards, ensuring reliable and secure storage. Our products are designed to handle batteries used in applications like e-bikes, power tools, laptops, and electric vehicles.

Obexion AG can store DDR batteries, EOL batteries, and EV batteries, making it ideal for battery recycling, battery storage, and safe battery shipping and transport. These boxes are ADR compliant, P911 and P908 certified, DOT Special Permit DOT-SP ...

For the safe active and passive storage of lithium batteries, the asecos ION-LINE offers three different safety levels: CORE: Comprehensive fire protection with the proven asecos evacuation and alarm forwarding concept. PRO: Expanded protection when handling lithium-ion batteries with improved monitoring.
